Professional Summary

Results-oriented Full-Stack Web Developer with a proven track record of delivering scalable, user-centric web applications. Proficient in React, Next.js, and Node.js, I thrive in collaborative, agile environments and am passionate about leveraging cutting-edge technologies to drive business success.

Skills

Frontend Development: HTML, CSS, React, Next.js, TypeScript, JavaScript, React Native, TailwindCSS
Backend Development: Node.js, Express.js, NestJS, Python, Go
Databases: PostgreSQL, MySQL, SQLite, Firebase, Supabase
Other: GraphQL, Jest, Firebase, Heroku, Vercel, Supabase, AWS, BitBucket,, Git, Github, Jira, Confluence, Agile Methodologies, CI/CD

Experience

Senior Frontend Developer, NEXT BASKET – Sofia, Bulgaria   June 2024 – August 2025
- Collaborated with cross-functional teams to deliver high-quality frontend solutions for a scalable e-commerce platform using Next.js, React, and TypeScript.
- Actively participated in daily stand-ups, sprint planning, and retrospectives to contribute to agile development practices.
- Developed scalable, user-friendly e-commerce interfaces using Next.js and other cutting-edge technologies.
- Improved website speed and user experience by identifying and resolving complex frontend performance issues.
- Quickly resolved critical issues impacting high-profile clients, minimizing downtime.
- Developed a deep understanding of e-commerce principles and best practices, including user experience, payment gateways, and product catalog management, to deliver tailored solutions for clients.
- Ensured code quality and maintainability through robust unit and integration tests.
- Streamlined the order creation and editing process to enhance user experience, resulting in 70% improved customer satisfaction ratings.

Software Engineer, National Center for AI and Robotics – Abuja, Nigeria   August 2023 – May 2024
- Delivered engaging workshops and training sessions on Machine Learning and Python programming, upskilling 100+ cohort members.
- Built innovative applications utilizing machine learning frameworks like TensorFlow.
- Led the development and implementation of a machine learning project that would reduce ailment detection time to minutes.

Fullstack Web Developer, Freelance – Abuja, Nigeria   September 2022 – July 2023
- Built and deployed scalable, user-centric front-end applications using Next.js and Vercel.
- Implemented robust backend APIs using Node.js, Express, and PostgreSQL.
- Designed and built native-quality mobile applications using React Native.
- Successfully delivered 20+ full-stack web applications for clients across various industries, including finance, healthcare and NGOs with over 80% satisfaction rate.

Fullstack Web Developer, 3.14 Limited – Abuja, Nigeria   June 2022 – September 2022
- Built a robust and user-friendly web application using React, integrating with Firebase for backend and authentication.
- Integrated with company API to retrieve and display live data from connected smart devices.

Fullstack Web Developer Intern, Yiaga Africa – Abuja, Nigeria   August 2021 – September 2021
- Built a dynamic web application using React and Next.js for efficient development and optimized performance.
- Visualized complex data through an interactive map of Nigeria using D3.js.
- Implemented backend infrastructure using Hasura GraphQL, connecting to a PostgreSQL database on Heroku.

Fullstack Web Developer, Logical Address – Jos, Nigeria   September 2019 – December 2019
- Implemented the frontend product using Preact for building high-performance web applications.
- Led the development of a scalable Node.js backend, ensuring efficient data management and API integration.
- Set up and configured Firebase services for media storage.

- Deployed the application to a production environment using Heroku.

Mobile Application Developer, Mercy Corps – Abuja, Nigeria   May 2019 – September 2019
- Built an internal mobile application using Flutter, delivering a high-quality user experience.
- Integrated the organization's social media feed into the mobile app.
- Implemented poll and survey features using Pollfish.
- Deployed the mobile application in rural locations in Northern Nigeria.

Education

Master in Cybersecurity – University West, Sweden   June 2026
Bachelor of Science in Software Engineering – American University of Nigeria   May 2022
